

# David James Dimalanta — UX Designer with a background in full-stack development.

david.dimalanta@mail.utoronto.ca | (647) 244-1440 | www.daviddim.ca

## Work Experience

---

### UX Designer — University of Toronto - Innovation Hub

April 2024 - Present

Toronto, ON

- Accomplished a **30% increase in user engagement** by leading the **website redesign project**.
- Developed **Family Care Office mini-site**, helping **1,000+** student-parents navigate campus support.
- Led **WordPress migration** of Figma prototypes, developing **documentation** and **design system**.
- Developed **reusable UI components** with **CSS** and **JavaScript**, ensuring scalability of future builds.

### Lead UX/UI Designer & Developer — Neo Law Group

May 2025 - October 2025

San Francisco, CA

- Spearheaded **end-to-end design and development** of law firm website serving **800+ nonprofit organizations**.
- Developed **+20 component design system** and **technical documentation**.
- Pitched design solutions to the firm and other stakeholders, **influencing product direction and strategy**.

## Projects

---

### GoAble: Accessible Washroom Finding App

Tailored Washroom-finding app UX case-study

- Conducted **UX research**
- Developed **Design System** and **Tokens** and **interactive prototypes** via **Figma Variables**
- Features **curated search based on user preferences** and washroom pages with **real-time updates on availability, amenity offering, and issues**

### Socratic.ai: Tailored Scholarship AI Platform

UofT x Anthropic Hackathon – Best application of Human-AI Interaction

- **Stood a team up** and led UX Design over 7-days.
- Conducted **lean usability evals** for prototype iterations.
- Developed a **0→1 application** that drafts and tailors your application based on scholarship hidden requirements.
- Result is a vector-based canvas with **multi-agent interaction**.
