

Work Experience

UX/UI Web Designer

UofT Innovation Hub
April 2024 - Present
Toronto, ON

- Led **website redesign project** resulting in **32%** increase in user engagement through **iterative prototyping** and **user testing**.
- **Collaborated with stakeholders across departments** to develop resource toolkit, helping student-parents navigate campus support.
- Led design handoff, developing **documentation** and the **design system** to facilitate future implementation.
- Developed **reusable UI components** with **CSS** and **JavaScript** in Wordpress

Product Designer

Neo Law Group
May 2025 - October 2025
San Francisco, CA

- Led **end-to-end design process** of website serving **800+ orgs**.
- Developed **+20 component design system** and technical **documentation**.
- **Presented design rationale** to firm partners and stakeholders, influencing **product direction** and strategy.

Projects

Accessible Washroom Finding App

Accessible Washroom-finding app concept

- **Conducted 10 user research sessions**, surfacing washroom accessibility insights through thematic coding and persona-driven design.
- Developed **design system** and **interactive prototypes** using **Figma Variables** for rapid iterations.
- Designed **data-informed personalized search** and curated washroom pages featuring real-time updates based on user feedback

Tailored Scholarship AI Platform

Anthropic Hackathon –
Best application of Human-AI Interaction

- Led **daily stand ups** and **UX** in a cross-functional team (designers, engineers, researchers) over 7-days.
- Conducted **lean usability evaluations** for prototype iterations.
- **Presented design concepts** to stakeholders, resulting in Best Human-AI Interaction award.
- Developed a **0→1 scholarship AI** on a vector-based canvas.

Education

University of Toronto

Masters of Information
2025-2027

Program: **UXD Co-op**

Skills

UX/UI Design, Full-Stack Development, Design Research, Design Systems, Web Development, Wireframing, Prototyping, Information Architecture, Visual Communication, Component Architecture, Human-AI Interaction Design, Mobile-First Design, Responsive Design, Project Management, Web Accessibility, Technical Documentation, Agile, Storytelling

Tools

Figma, Framer, WordPress, Webflow, Google Material 3 Expressive, WCAG, HTML, CSS, JavaScript, Python, React, Next.js, Tailwind CSS, Supabase, PostgreSQL, SQL, AWS SDK3, Git, Vercel, R, Cursor, Claude API, Claude Code, Miro
