## Work Experience

### UX/UI Web Designer

UofT Innovation Hub  
April 2024 - Present  
Toronto, ON

Led **website redesign** project of **15+ components** and **~50 design tokens**. Our work resulted in **32%** increase in user engagement.

Collaborated **with stakeholders** across departments to develop resource toolkit, helping student-parents navigate campus support.

Led design handoff, developing **documentation** and the **design system** to facilitate future implementation.

Developed reusable **UI components** with **CSS** and **JavaScript** in Wordpress

### Product Designer & Developer

Neo Law Group  
May 2025 - October 2025  
San Francisco, CA

Led **end-to-end** design process of website serving **800+ orgs**.

Developed **design system** and technical **documentation**.

Presented **design rationale** to firm partners and stakeholders, influencing **product direction** and strategy.

## Projects

### GoAble

Accessible washroom finding app concept

Conducted **10 user research** sessions, surfacing washroom accessibility insights through thematic coding and persona-driven design.

Developed **design system** and interactive **prototypes** using Figma Variables for rapid iterations.

### Socratic.ai

Tailored scholarship AI platform — Best application of Human-AI Interaction

Led **daily stand ups** and **UX** in a cross-functional team (designers, engineers, researchers) over 7-days.

**Presented design concepts** to stakeholders, resulting in Best Human-AI Interaction award.

Developed a **0→1 scholarship AI** on a vector-based canvas.

## Education

### University of Toronto

Masters of Information  
2025-2027

Program: **UXD Co-op**

## Skills+

UX/UI Design, Design Research, Design Systems, Web Development, Wireframing, Prototyping, Visual Communication, Human-AI Interaction, Accessible Design, Project Management, Technical Documentation  
Figma, Framer, WordPress, Webflow, WCAG, HTML, CSS, JavaScript, Cursor, Claude Code, Miro
